

CROATIA SPLIT

04.-05. October 2024.

1st International Congress

Orthodontics 2024

What do you
REALLY need?

GC Orthodontics

MANODENT

MEET OUR **INTERNATIONAL** **KEYNOTE** SPEAKERS!

Stefano Troiani
Zurich, Switzerland

Mazor Yoav
Tel Aviv, Israel

Berza Sen Yilmaz
Istanbul, Turkey

Christian Samoila
Timisoara, Romania

Pawel Machala
Iodz, Poland

Sunil Hirani
London, UK

Aleksandar Gulin
Zagreb, Croatia

LECTURES ABSTRACTS

01. dr. Stefano Troiani

Extractions 2024: Obsolete treatment or still actual ?

Therapy with extractions has been criticized over time with several motivations:

- extractions restrict airways
- extractions cause TMD
- extractions worsen patients profile

Is there any truth to this or are they just biased accusations? TADS have been increasingly used to perform limit dentoalveolar compensations to avoid extractions. Is this justified by science or is it just the product of marketing and speakers need for attention?

Aligners have been suggested to expand the dentoalveolar limit and are used in most cases with non-extraction approach. Is it evidence-base or the product of companies policies to limit the number of aligners printed? This lecture will aim at giving some an objective view of risks and advantages of extraction therapy, both from a diagnostic and a biomechanical perspective, when compared to modern alternatives.

02. dr. Mazor Yoav

Hybrid multi segmental CL II correction - What is new ?

The modern concepts and understanding of CL II malocclusions have been the keystone for the development of new approaches for the malocclusion correction, including in adults.

The Multi Function Appliance – Multi FA, is a unique appliance, developed specifically to match those new concepts, offering not only easy and fast malocclusion correction, but also the correction of other common situation such as space opening, closing and more.

03. dr. Berza Sen Yilmaz

Orthodontics 2024 - Is there still place for functional appliances ?

In growing patients having skeletal Class II malocclusion, functional treatment provides the opportunity to achieve orthopedic results, perhaps preventing patients from a more invasive course of treatment. There is much discussion on the effectiveness of functional orthopedic treatments for the Class II malocclusion, with conflicting findings in the orthodontic literature. Dr. Yilmaz will provide guidance on how to design more effective treatment plans.

LECTURES ABSTRACTS

04. dr. Christian Samoila

MSE, MARPE, SARPE - Real indications beyond marketing !

Addressing problems of transverse discrepancies is crucial in orthodontic treatment, where various diagnostic methods converge toward a common objective. With numerous treatment options and appliances available, the decision-making process can be influenced by marketing, yet sound knowledge remains pivotal in determining the most suitable approach for each patient!

05. dr. Pawel Machala

TMJ diagnostic - Which tools make sense !

Is TMJ diagnosis always necessary? What diagnostic tools do we have? How to use them? How to apply correct treatment using TMJ diagnosis What mistakes we can avoid thanks to the use of TMJ diagnosis?

THE BIG FIVE questions - I will try to answer using my knowledge and clinical experience.

06. dr. Sunil Hirani

Aligners vs Fixed Appliance Biomechanics - Do we really know what is going on ?

Use of aligners and fixed appliances both have their own biomechanical rules and challenges. How do we take advantage of this in daily clinical practice so we have happy patients and a profitable clinic? These important basic biomechanical points are usually not analysed (and easily forgotten) but are needed for optimum performance of all treatments. Biomechanical concepts, clinical tips, relevant evidence, patient treatment and diagrams will be shown.

07. dr. Aleksandar Gulin

Less is more - How BioActive wires changed my office protocols !

In this lecture a representative sample of clinical cases will be used to demonstrate dramatical change of wire protocol which self appeared by introducing BioActive wires in everyday clinical practice. Hope everyone will be able to grasp the idea how indirect bonding with use of minimum number of wires creates a good final results with a great facilitation of storage management and reduction of appointment load to office busy schedule.

CONGRESS PROGRAM

DAY 1

Friday, 04.10.2024.

Chairman: dr. Gulin Aleksandar

08:00-09:00	Registrations
09:00-09:15	Opening ceremony
09:15-10:15	dr. Christian Samoila <i>MSE, MARPE, SARPE - Real indications beyond marketing</i>
10:15-11:15	dr. Pawel Machala <i>TMJ diagnostic - Which tools make sense</i>
11:15-12:00	Coffee break
12:00-13:00	dr. Stefano Troiani <i>Extractions 2024: Obsolete treatment or still actual ?</i>
13:00-14:00	dr. Berza Sen Yilmaz <i>Orthodontics 2024 - Is there still place for functional appliances?</i>
14:00-14:15	Discussion, Q&A
14:15	Lunch & welcome champagne
18:30	Party dinner

Congress Venue

Hotel Ambassador

*Trumbićeva obala 18, Zapadna obala
21 000 Split, Croatia*

Entrance to the Congress hall:

From hotel reception or directly from the promenade

Party dinner

Celebrating 12 years of company

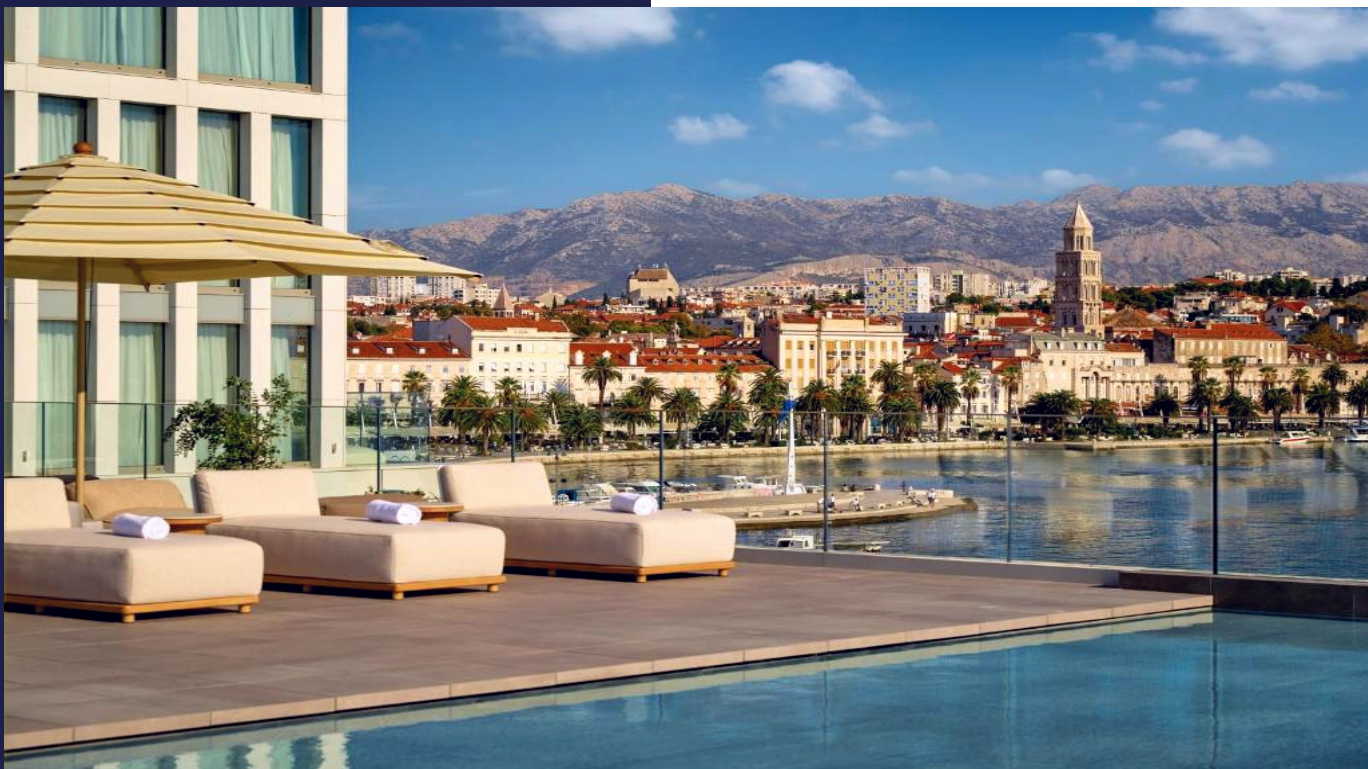

Manodent & 10 years of GC Orthodontics in Croatia

DAY 2

Saturday, 05.10.2024.

Chairman: dr. Christian Samoila

09:00-10:00	dr. Sunil Hirani <i>Aligners vs Fixed Appliance Biomechanics Do we really know what is going on?</i>
10:00-11:00	dr. Mazor Yoav <i>Hybrid multi segmental CL II correction - What is new?</i>
11:00-11:45	Coffee break
11:45-12:45	dr. Aleksandar Gulin <i>Less is more - How BioActive wires changed my office protocols</i>
12:45-13:00	Discussion, Q&A
13:00	Lunch & goodbye drink

Hotel Ambassador
Trumbićeva obala 18, Zapadna obala
21 000 Split, Croatia

WHERE MODERN SOPHISTICATION **MEETS** **MEDITERRANEAN SIMPLICITY**

Accommodation

- breakfast and all taxes included
- the stated price refers to Run of the house
- Internet in the entire hotel (public areas/rooms) and access to the fitness center is included in the price of accommodation
- tourist tax is not included in the price of accommodation and amounts to EUR 1.86 per person per day

* Special room rates are limited in number and offer is valid till 30.06.2024.
To make reservation at a special rate please send request directly to hotel Manager
Mrs. Srđana Donadić via e-mail srdjana.donadic@ambassadorsplit.com

Single room

270,00 € / per night

Double room

290,00 € / per night

Reservations can be made directly on the hotel website www.ambassadorsplit.com

HOW TO REACH THE DESTINATION, CROATIA, SPLIT!

Arrival by plane

Airport Split (SPU)

Telephone: +385 (0)21 203 555

Fax: +385 (0)21 203 422

Web: www.split-airport.hr

E-mail: informacije@split-airport.hr

TRANSFERS

Airport > city center

BUS:

Airport shuttle bus
Main bus station (City Harbor)
Obala kneza Domagoja 8
Tel: +385 (0)21 329 180
www.ak-split.hr

„Promet“ Split (local lines)
Suburban bus station
Sukoišanska ulica
Tel: +385 (0)21 407 999
www.promet-split.hr
Schedule: No. 37 | No. 2 |
Integral line (bus + train)

The Split Airport is located in Divulje, between Trogir and Kaštela, around 25 kilometers from the Split centre. Croatia Airlines provides a bus directly from the airport exit station to the main bus station in Split. Taxi is also available, as well as a local bus line Trogir-Split.

The fastest and most comfortable option to reach Split city centre is by local taxi. The cheapest option is the local bus (line no 37) or the more convenient shuttle bus by Pleso Prijevoz.

Transport option	Duration	Cost (ticket price)
Shuttle Bus (Pleso Prijevoz)	30 min	6,00 € (single ticket)
Local Bus	50 min	2,50 € (single ticket)
Taxi, UBER or Private Transfers	30 min	28,00 € (up to 4 persons)
Water taxi	20 min	120,00 € (per vessel)
Fast Ferry (Catamaran)	15 min	15,00 € (single ticket)

Arrival by car

On the highway Zagreb-Split take the Split, Dugopolje exit. After the exit follow the signposts for Split. Once close to Split, take the first of two entry points marked Split Center – Industrial Zone. (The road will bend to the right).

Make Your Registration

Registrations can be made directly on the Congress webpage

www.identitycongress.com

EARLY BIRD DOCTORS	STANDARD RATE STUDENTS, RESIDENTS	STANDARD RATE DOCTORS	FINAL CALL DOCTORS
420,00 €	250,00 €	500,00 €	550,00 €
Before 30.06.2024.	Before 04.10.2024.	After 30.06.2024. Till 21.09.2024.	After 21.09.2024. On site

Registration fee includes

Access to the congress lectures 1st & 2nd day
Conference materials
Lunches and coffee breaks during the congress
Certificates
Party dinner on Friday, 04th of October 2024.

Cancellation

Cancellation will be accepted in written form until September 15, 2024. – full refund of the registration fee minus 30% administrative cost.

Please send your cancellation in written form on
edukacije@manodent.hr

Cancellation received after September 25, 2024. – no refund.
